

SRI PRAKASH YOUNG SMILES

SURGING AHEAD WITH MILES OF SMILES

VOL.: 17 - ISSUE : 3

FEBRUARY 2019 - MAY 2019

Academic excellence being the propelling intensity, we at Sri Prakash Vidyaniketan plan and execute our roster in sync with this vision to cater to an all round development of our students who are reported to be excelling in all walks of life, be it profession or at the talent front. The saga of successful board results blended with academic activities along with success in competitive examinations have leveled to the expectations of one and all. At the outset, I congratulate all the students who have excelled in their academics in Std. X board examinations with outstanding performances both in CBSE and SSC. I would like to congratulate Punnavajjala Gyana Prakash, for scoring 7th rank and **T.Prema Sai**, for scoring 17th Rank in NTSE examination, Level I, **Aditya Nandan** of Std. VIII, for being selected to play in National Junior NBA Basketball, I would like to congratulate the Team of SRUJANA (INTACH CLUB) for winning the special best Heritage Club and **K.Phani Madhavi** of Std. X for winning the

2019 - SEVA BHARATHI PAINTING COMPETITION

The Earth is what we all have in common said Wendell Berry. No one has the right to destroy this common property. The World Earth day was celebrated on 22nd April to honour the 'Environmental Movement' that started in the 1970's. The occasion was adorned by scientist Sri L. Jagadeesan, CSIR-National Institute of Oceanography, Regional center and Dr. Jeelani, Retd. Science Centre Curator, Natural History

Society of India. Dr. L.Jagadeesan educated the students on coral reefs, fringing reefs, Barrier reefs etc. He further sensitized the students on protection of human life. The event was also marked by the closing ceremony of the summer camp for students. The distinguished guests gave away the prizes to winners of different competitions which were held as a part of summer camp.

Prakashite, Aditya Nandan takes the pride of having been selected for the Nationals Jr. NBA.

An inspirational interaction with Mr. Michael Salame, Youth Basket ball coach, USA.

Master Md. Hassan Ali, 13-year-old whiz kid who teaches B.Tech & M.Tech students.

Master Mohammad Hassaan Ali, a child prodigy from Hyderabad, Shared his ideas, vision and experiences with Prakashites. Master Hassan, a grade VII student, gives design and drafting lessons to civil, mechanical and electrical engineering students. Addressing the gathering, the wiz kid said that he has got the inspiration to start his academy, "Skill India" when he learnt that Indian students in abroad do odd jobs in spite of their education due to lack of technical and communication skills. He has been teaching students from 30 different colleges since one year. His students hail from different countries across the world including many African countries. He aims to teach 100,000 students by the end of 2020 and all this absolutely free of cost. He says, his source of knowledge is internet.

Overseas Study Tour to Japan

On the invitation from The Sakura Science Exchange Programme organized by the Japan Science and Technology Agency & Japan International Co - operation center, a team of 7 students and a teacher from Sri Prakash Vidyaniketan, had a rare opportunity for an overseas study tour to Tokyo - Japan the land of rising sun. They had a very good experience in Science and Technology, Culture, Discipline, their Wonderful disaster management and interaction with Astronaut and Nobel Laureate.

Interaction with Nobel Laureate Prof. Ryoji Noyori.

Interaction with the Nobel Laureate Prof. Ryoji Noyori :

A fair opportunity for Prakashites was the interaction with Professor Ryoji Noyori, who is the receiver of Nobel Prize in chemistry in 2001 answered their queries in a noble way and inspired the younger generation to dream science and contribute for the Research and scientific development.

Amithrajith Premesh interacting with Prof. Ryoji Noyori, Nobel Laureate

Demonstration of ASIMO (Robot) : Prakashites were mesmerized when they witnessed a Humanoid Robot ASIMO which could interpret voice commands and human gestures, had the ability to recognize moving objects, postures, gestures and its surrounding environment.

Visit to Tokyo Rinkai Disaster prevention park

: This acts as a central base of operations for disaster prevention in the Tokyo Metropolitan area which helped them to grasp knowledge about the technological development .

The Tokyo Rinkai Disaster Prevention Park

SONA AREA TOKYO

Tokyo Rinkai Disaster prevention park

Visit to JAXA (Japan Aerospace exploration agency)

: This gave them a deeper understanding of the history of Japan's Space development and accumulated numerous achievements, showing an example of Engineering Test Satellite "KIKU" (E TS) series.

Exploring : Japan Aerospace Exploration Agency

Getting to Know the Educational System:

Their Itinerary also included to know about the educational system of Japan such as the Shibaura Institute of Technology, Shibuya Junior and Senior High school and the university of Tsukuba, and their visits helped them to exchange their ideas and know the educational system of the country and the scope for higher studies.

Visit to Shibaura Institute of Technology

Visit to Tsukuba University

Hotel Emion Tokyo Bay

Dr. Mamoru Mohri, an Astronaut & Director of Miraikan

Rare opportunity to meet an Astronaut :

At the Miraikan Prakashites had a grand opportunity to interact with Dr. Mamoru Mohri, an astronaut and director of Miraikan. Inspired By Yuri Gagarin - First human to journey into outer space, he took up a dream to become an Astronaut and advised the young delegates to Dream Big and Aim High.

Visit to "Miraikan -"The Future Museum"

National Museum of Emerging Science and Innovation, which is a science Museum encompassing future science, technology and innovations of all kinds where they learnt the meaning of "Open Your Eyes to Science : See a Whole New World"

Miraikan - The Future Museum

Visit to JAMSTEC (Japan Agency for Marine Earth Science and Technology)

which heads towards an integrated understanding of the ocean, the earth and life. It focuses on the observational research on the global changes, dynamics of the earth's interior, marine, ecosystems and extreme biospheres in addition to the development of marine technology. This made them understand how these activities contribute to the benefit of peace and human welfare.

Cultural sites Visited : The visit to the Cultural site of Japan Kamakura city- Great Buddha of Kamakura. Known as Kamakura Dai bustu which is the second tallest Buddha statue in Japan and the Tsurugaoka Hachimangu Shrine introduced them to the architectural wealth of Japan as well.

Sakura Exchange programme is a nobel opportunity for the Prakashites that has introduced them to yet another world of cultural wealth and Cutting - Edge technology of the World.

Great Buddha of Kamakura

The Learning Dais...

I was overwhelmed with joy when I came to know that I was selected for the third level Classmate Spell Bee Competition. I strived hard and was selected for the semifinals as well. I thank my teacher for her constant support and encouragement through this wonderful journey.

- V. Manasa Sruthi, IX

Knowledge can be gained in many ways, but the knowledge gained through experience knows no bounds. Such was my experience in Japan. It was a great exposure and I'm looking forward to share my knowledge with all my friends at school.

- Amitrajith Premesh, IX

This summer camp made me more enthusiastic and joyful as I got an opportunity to be a part of the ATL workshop which included Robotics, 3D-modelling, and Aero-modelling. It gave me a good platform to gain knowledge and constructively. I could analyze the concept of aircraft, glider, types of drones and its functions. The most exciting part was I could make a glider by using coroplast sheet and measure the time taken by it to fly in the air.

-V Charan , VII

International Children's Science and Mathematics Festival (ICSMF) proved to be a unique platform for creative minds. It gave me opportunity to meet eminent personalities and a chance to interact with student delegates from other countries. I thank my school for this great opportunity.

- M.K.L. Sri Varshini, IX

I had a great learning experience through various seminars and workshops that I have attended. A great mathematician K.V. Subramaniam sir showed us how to tackle 'tricky math concepts'. These seminars and workshops make me think and understand life better. They encourage me to pursue education beyond my course.

- Nitish Kumar Pujari, X

An interesting and creative workshop was organised by our school during the month of April by Professor N G Bagodi, Dean, Faculty of visual Arts, on 'Print Medium' in which we were taught about print making without a press, etching and also were briefed about the different types of print making methods with press. We were delighted by the artistic works of the students of M.S.University. We enjoyed working with the printing press and were excited when we saw ourselves making prints on paper.

Home Away from Home

Life in Sri Prakash Hostel comes with a combination of FUN, Tradition and Knowledge. Prakashites complete the meaning of residential schooling with an all round development. Along with education, they acquire the experience of Yoga, Games, Traditional activities etc. A homely atmosphere is set throughout the year with the celebrations of 'Birthdays', 'Festivals', 'Outdoor visits' in the city and so on. This

year too they had been to 'The Indira Gandhi Zoological Park'. On the day of 'Vasanth Panchami'. All the hostellers assembled to worship the goddess of Education, 'Saraswathi Ma'. To encourage their sportsmanship quality, there was an Intra School Basketball Competition held amongst the branches. Students are taught the values of tradition, discipline and team work added up to their knowledge.

Sri Prakash Vidyaniketan Intra-school Basketball winners.

Ratan Naval Tata

India's Jewel Padma Vibhushan Ratan Naval Tata

Ratan Naval Tata, (born 28 December 1937) is an Indian industrialist, businessman, investor, philanthropist, and a former chairman of Tata Sons who serves as its chairman emeritus. He was also chairman of Tata Group, from 1991 to 2012, and again, as interim chairman, from October 2016 through February 2017, and continues to head its charitable trusts. He is the recipient of two of the highest civilian awards of India - Padma

the Cornell University College of Architecture. He joined to company in 1961, and was the apparent successor to J. R. D. Tata upon the latter's retirement in 1991. During Ratan Tata's chairmanship of 21 years, revenues grew over 40 times, and profit, over 50 times. He boldly got Tata Tea to acquire Tetley, Tata Motors to acquire Jaguar Land Rover, and Tata Steel to acquire Corus, in an attempt to turn Tata from a largely India-centric group into a global business.

Childhood & Early Life :

He was born on December 28, 1937 in Surat, India, to Naval Tata and Sonoo. Naval Tata was the adopted son of the Jamsetji Tata's younger son Ratanji Tata. Jamsetji Tata was the founder of the Tata Group of Companies. Ratan Tata has a brother, Jimmy, and a step-brother, Noel Tata. When he was ten, his parents, got separated and thereafter, he and his brother were brought up by his grandmother, Navajbai Tata. He received his early education from the Campion School, Mumbai and finished his schooling from the Cathedral and John Connon School, Mumbai. In 1962, he obtained his B.S. in architecture with structural engineering from

RD Tata, who had led the group for over half a century, appointed Ratan Naval Tata to be his successor

were raised regarding his ability to run the corporation. But he succeeded in improving the financial success of the industries and expanded the growth of the organization under his leadership. He transformed the management and vision of the division, and managed to bring in significantly larger dividends. He also became a member of the Prime Minister's Council on Trade and Industry. He served on the advisory board of the RAND's center for Asia

and worked with the furnaces along with the blue-collar employees. It was a difficult job and helped him gain a better understanding and respect for his family business. In 1971, he was appointed as the Director-in-Charge of the National Radio & Electronics Company Limited (NELCO) in order to help its struggling finances. He worked towards building a better consumer electronics division but the economic recession and union strikes prevented him from achieving success. In 1977, he was moved to Empress Mills, a struggling textile mill within the Tata Group. He proposed a plan for the mill but the other Tata executives rejected it and the mill was shut down. Later, he was moved to the Tata Industries. In 1991, J.R.D. Tata appointed him as the new Chairman of the Tata Group of Companies. This decision came under scrutiny following objections from other executives of the company and questions

Pacific Policy and is also an active participant in India's AIDS initiative program. He also holds the membership of the international advisory board of the Mitsubishi Cooperation, the American International Group, JP Morgan Chase and Booz Allen Hamilton. On his 75th birthday, i.e., on 28 December 2012 he resigned from the post of Chairman of Tata Group and was succeeded by Cyrus Mistry, managing director of Shapoorji Pallonji Group. Even after retirement, he is still an active businessman and invests in upcoming promising business ventures.

Awards & Achievements : In 2000, he was conferred the Padma Bhushan, the third highest civilian honor awarded by the Government of India. In 2004, he received the 'Medal of the Oriental Republic of Uruguay' from the

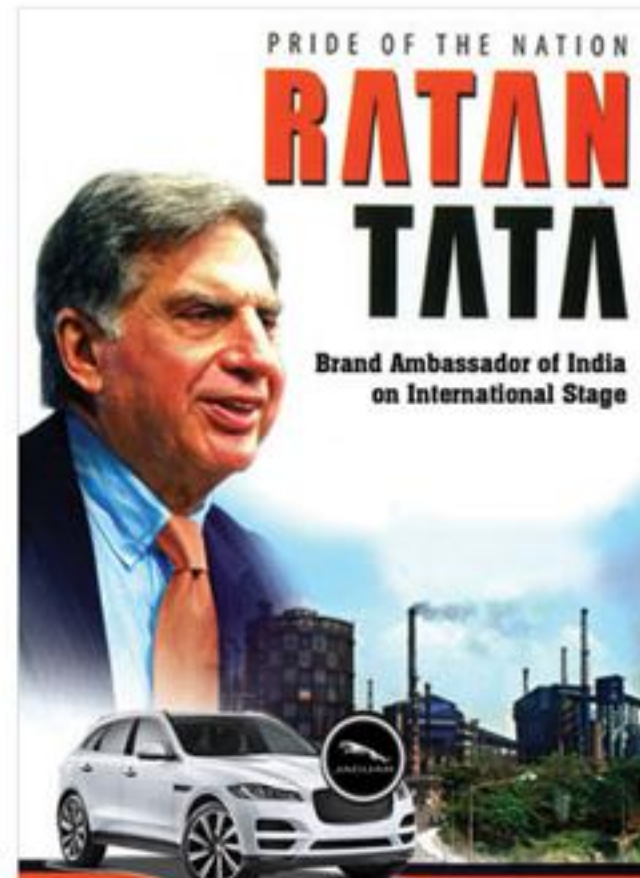

WORDS OF RATAN TATA

"If u want to Walk Fast, Walk Alone.
But - if u want to walk far, walk Together."

How strange it is:
We wish to wear high brands
but we feel most comfortable in pajamas.
We wish to sit in Taj & Marriot with elite people,
but we enjoy roadside tea with friends and with people we love.
We wish to own big cars and go on long drives,
yet we talk our heart out only while walking down a long road.
We have 64GB iPods filled with songs
but sometimes a song on the radio brings a smile that can't be compared."

The President, Smt. Pratibha Devisingh Patil presenting the Padma Vibhushan to Shri Ratan Naval Tata

Awesome words by **RATAN TATA**

Don't educate your children to be rich. Educate them to be happy, so they know the value of things, not the price.

None can destroy iron, but its own rust can! Likewise, none can destroy a person but his own mindset can.
